Action Plan (2018-2023)

Basugaon College is a Degree college which was established in the year 1986. It is located in the district of Chirang Assam. The College is affiliated with Bodoland University, BTR Assam. The college is providing education to the students from diverse backgrounds. There are students from different communities like Bodo, Assamese, Bengali, Adivasi, Nepali etc. from rural areas. There is a addition of Science stream in the campus which has started from August/September 2023.

1. Administrative Building:

The administrative building is under the construction which includes The Principal's Office, Account's Branch, Administrative Branch, Office for the stakeholders/guests meetings. For the convenience of the visitors and students, the building has been set up right in front of the college entrance gate.

2. Security Arrangements:

The security arrangements are available particularly during the day at the main gate and the arrangements are made for the night security as well.

3. Learning Management Systems:

The KOHA is implemented in the Library for the convenience of the students as well as for the Library staff. This helps students for the issue and return of the books and also to find the books in the library very easily. The N-List has been in place for the students as well for the teaching staff. This helped both Students and Staff to read and download reading materials online. The Google classrooms are being used for taking classes, sharing notes and sending assignments to the students.

4. Classroom Renovation:

The classes are renovated on the timely basis. The walls are painted and required number of desk and benches are regularly added to the classrooms as per the requirements.

5. Extension of Canteen:

There was a sitting arrangement made only for teacher inside the canteen. Whereas the students sitting arrangement were made with an umbrella canopy which was difficult during the rainy season. So extension of a canteen with addition of a room for the students are completed.

6. Extension of First Floor in the Girls' Hostel:

The Ground Floor of the Girls' hostel is completed. Now the construction of the First Floor of the girl's hostel has started.

7. Extension of Pathway to the Girls Hostel:

The separate pathway to the girls' hostel is the process for the convenience of the students staying in the hostel.

8. Smart Classrooms:

The smart class rooms have been accommodated along with the normal class rooms in the campus. At present, there are 3 smart classrooms in the campus. There will be more inclusion of ICT enabled classrooms to meet NEP requirements.

9. Rainwater Harvesting/Conservation:

The area where the college is located receives huge amounts of rainfall with the summer. There are two water tanks constructed for collecting the rain water which is used for different purposes like for watering the garden in the campus. This also helps the college for sharing a strong message to the students and the community, the importance of water and conservation of the gifts of a nature.

10. Trees and Gardening:

The college is full of greenery with different trees, plants and floral garden. These trees not only add beauty to the campus, but they produce fruits to eat, provide shades and more importantly help produce oxygen. The plantation program is arranged every year and the campus is now adding different plants/trees inside the campus.

11. Signboards and Lighting in the campus:

There are different signboards that are installed inside the campus. The signboard on Human Rights, Education, History etc are available in the campus to make the students aware of the facts. The college had lighting arrangements in the campus including classrooms, library etc.

12. Auditorium:

The campus has a small auditorium which is utilized for conducting seminars, meetings with students and cultural programs. This auditorium is also rented for conducting business meetings which adds revenue to the college.

13. Gymnasium:

The health is the most important aspect of every living being. Keeping in mind the importance of this, the management is introducing the gym inside the campus.
